

# **Our Learning from Spring 1**

Class 4 have transitioned and settled brilliantly with the arrival of their new teacher, Mrs Coles.

## **Reading**

One big change that the children have loved this term is the new layout of the classroom with the arrival of a book corner. The children love having time relaxing and looking at different books.

We also completed a 'Book Blanket' where the children selected a book, they would like on the shelves so that there is not too much choice. These will be changed over every half term.

Inviting parents in for 'Books 'n' Brekkie' has also been a lovely time for the children to share books.

Reading for pleasure is a special time in our class where everyone feels relaxed and has time to read. Mrs Bacon has also joined us several times for this.

## **Geography – What makes a fair trade?**

In this Topic, the children have learnt about how trade is fair and what we can do to make sure everyone in the chain receives a fair wage. As part of this they produced graphs to show the top 10 exports of the UK and designed posters to persuade people to buy Fair Trade items.

**Swimming** This has come to an end and every child worked so hard in the pool to learn new skills and strokes working up to swimming 25m. Well Done Class 4!
